

Total Plant Care

Gen200 was launched in 2012 with the introduction of Control, the Original OSA Formula.

Conceived for the indoor cultivation of flowers and fruit, the benefits of our proprietary orthosilicic acid recipe were quickly embraced by home growers as well.

This inspired us to develop a complete, balanced line of nutrients founded on scientific fact and evidence-based practices.

Gen200 is proud to offer you a plant care line that is complete, easy to use and, most importantly, more effective than any other product on the market today.

THE GREEN REVOLUTION

GEN200

Schedule for soil  
per 100 litre of feeding water.

GEN200

THE GREEN REVOLUTION

# Complete Basic Care

Gen200's Complete Basic Care provides the total basic nutritional needs of your plants, balanced for every week of the grow. Thanks to its highly concentrated powder formula, you only buy the ingredients you need – all the ingredients you need – and not the water.

# Essential Extra Care

Gen200's Essential Extra Care products help you to keep your plants healthy and strong. Developed by industry leading scientists, they set new standards in plant care.

Enzyme

Calmag+

pH-

Lime+

Breaks up dead roots in the substrate, giving your next grow space for healthy new roots.

Creates much greener plants by adding a special mix of trace elements to the standard calcium, magnesium and nitrogen.

Allows you to reach the right acidity levels in feeding water so your plants can absorb all nutrients that you provide.

Fast working lime that protects your soil from sudden changes in acidity levels

# Professional Care

Gen200's Professional Care line consists of Control, the Original OSA Formula, and Grow, a unique root booster. Both products were developed with the professional grower in mind.

Control

Grow

Makes your plants stronger and more resistant against stress, giving you a stable and carefree grow.

Provides more and stronger roots for your plants, creating a better, solid foundation for your grow.
